

Project Goals

all project goals should be defined in detail and agreed upon by the team

Number	Goal	Resp	Due Date
1	Must go live with requirements defined	Team	1/1/2021
2			
3			
4			
5			
6			
7			
8			
9			
10			

We expect that part of defining a project and getting it approved that the entire team must understand the goals to be achieved and by what date. As an integral part of that team, we understand the above goals and target dates
